

Adobe Academy Career Pathway (ADAC)

Prerequisite	Concentrator
II31 Adobe Visual Design	II32 Adobe Video Design or II33 Adobe Digital Design

Adobe Visual Design

Course Description

This course is a project-based course that develops career, and communication skills in print and graphic design using Adobe Programs. This class will be using the Adobe Creative Cloud Suite, with a focus on Photoshop, InDesign, and Illustrator. The goal of this class is to achieve certification in all this software. We will work through various tutorial guides and lessons to learn all the aspects of the software. The students will create large projects both individually and as a group to apply the skills we will learn throughout the semester.

Adobe Digital Design

Prerequisite: Adobe Visual Design

Course Description

This course is a project-based course that develops career and communication skills in web design & development using Adobe Dreamweaver. This course offers Adobe Dreamweaver certification. We will work through various tutorial guides and lessons to learn all the aspects of the software and basic web design languages such as HTML and CSS. The students will create large projects both individually and as a group to apply the skills we will learn throughout the semester.

Adobe Video Design

Prerequisite: Adobe Visual Design

Course Description

This course is a project-based video course that develops career and communication skills in video production using Adobe Premiere Pro. This course offers Adobe Premiere certification. We will work through various tutorial guides and lessons to learn all the aspects of the software. The students will create large projects both individually and as a group to apply the skills we will learn throughout the semester.
